

Ayesha Siddika Moni

E-mail: ayeshasiddikamoni408@gmail.com

Skills

Programming Languages: C, C++, Java

Web Development: HTML, CSS, JavaScript

Core Competencies: Data Structures and Algorithms, Database Management System.

Other Skills: Version Control (Git), Debugging, Code Optimization,

Problem Solving: I have my Leetcode account called “Ayesha_Siddika_Moni” (Link: https://leetcode.com/u/Ayesha_Siddika_Moni/). I am interested in Competitive programming. I solved about 100 easy and medium questions on Leetcode and I also have a Hackerrank profile where I solved over 200 questions.

Project

1. **Music App Clone.** (This Music app Clone is inspired by Spotify Music app. One can store songs according to lexicographic order, can play songs, one can create a playlist of songs by the singer's name.)
2. **Amazon Clone.** (One can order, choose the one they like).
3. **Snake Game** (This game is like basic snake game where snake eats balls and collects points. It also collects the highest score. I made it with basic HTML, CSS and JavaScript.)
4. **Tic-Tac-Toe Game.** (It is also a basic Tic-Tac-Toe game between two teams. It is created on HTML, CSS, JavaScript.)
5. **Rock-Paper-Scissor.** (I enjoyed making it. Because for the first time I learned how computers also can play with us. Yes, the game is between User and Computer.)
6. **Weather Checker App.** (We can check weather on this app and at the same time we can know the humidity, temperature, whether it's going to rain or not etc.)
7. **Virtual Kitchen and Food**

Education

University of Frontier Technology Bangladesh

Department of Educational Technology and Engineering

Year: 2022-23 (3rd Semester running).

College: Ibne Taimiya School & College, Cumilla, Chittagong.
